Bangalore

### Career Objective

An engineer with critical thinking, Idea pitching and collaboration abilities. I'm a Full Stack Developer seeking an opportunity where I can enhance and explore my technical knowledge which includes Frontend: HTML, CSS, JavaScript, Java, Python and SQL. I hold a B.Tech. Degree from M S Ramaiah University of Applied Sciences. I am Flexible for any Software roles also very adaptive and quick learner to any clients requested technologies.

Year	Qualification	College/School	University/Board	CGPA/Percentage
2018-22	B.Tech. -ME	M S Ramaiah University of Applied Sciences	Autonomous	7.3 CGPA
2016-18	PUC - PCMB	RNS Vidyaniketan Pre University	KSSEEB	61%
2015-16	ICSE	Holy Angel's High School	CISCE	71%

### TECHNICAL SKILLS

- JAVA
- Python
- Data Structures
- CSS
- Angular JS
- SQL
- HTML
- Java Script

### CERTIFICATIONS

- Certified Full Stack Developer from KodNest
- Certified in Java from Coding Ninjas
- Completed course on C++ from NPTEL

### CAREERSKILLS

- Critical Thinking
- Problem Solving
- Teamwork & Collaboration
- Research & Analysis
- Idea Pitching

### AREA OF INTEREST

- REACT
- DEVOPS
- ML
- AI
- Web Development
- Data Analytics

### PROJECT

#### A STAND ALONE APPLICATION OF IMPLEMENTING LINEAR DATA STRUCTURES:

- Concepts Used: Swings, OOPS, Swings, OOPS, Arrays, Classes and Methods.
- In computer science, a data structure is a data organization, management, and storage format that is usually chosen for efficient access to data
- The Main agenda of the project is to showcase the operations and working of different linear data structures.
- This Project Concentrates On the Implementation of Linear Data Structures Like: **Array, Stack, Queue, Circular Queue Singly, Linked List, Doubly Linked List.**

#### PERSONALIZE CODE EDITOR WITH CODE COMPILATION AND EXECUTION:

- Technologies used: HTML, CSS, JAVASCRIPT, PHP, PYTHON.
- Allows users to write, compile, and run code all within the same application. This would provide a convenient and streamlined workflow for developers, as they would not need to switch between multiple programs or terminals to complete these tasks.
- Additionally, the ability to compile and run code would allow users to test and debug their code within the editor itself. This is in contrast to having to move it to a separate environment.
